

Lease-A-Horse

Lease-a-Horse is a short term winter horse lease between Marmon Valley Farm and a horse enthusiast. Horse leasing is available over the winter months at the discretion of MVF's horse herdsman for individuals who meet the following requirements. Individuals lease a horse or horses from the camp and take over all feed and care costs for the duration of the lease.

Site Requirements:

- Shelter, 8' high. A minimum 10' x 10' area with a wind break or 2 – 3 sides. A stall is fine as long as the horse can come and go at will or is turned out on a regular schedule.
- Pen or Paddock should be high and dry with good drainage.
- Hay and grain storage should keep hay dry, off the ground and away from the horse's reach.
- Tack Storage must keep saddles and bridles, etc. dry, off the ground and away from rodents.
- Meet all specified Horse Care Requirements.

Lease Arrangements

The individual leasing a horse or horses from Marmon Valley Farm will sign a lease and care agreement that requires all care and feed to be provided by the one leasing the horse from MVF. Beyond the expenses incurred from the care of the horses, there is no fee for this program. Horses not cared for in a satisfactory manner will be brought home before the end of the contract date. MVF will send a representative from the Farm to check on the animals during the winter. Any concerns should be addressed with MVF. Transportation can be arranged through MVF at the going loaded-mile rate.
